About Us

Cyberdent's 30 years of Dentistry and CAD/CAM experience allows us to bring our customers into the digital age with a focus on quality and affordability. Cyberdent offers a full laboratory service covering fixed and removable prosthodontics, orthodontics, orthotics, and sports mouthguards. Whether you're using PVS impressions or an intra-oral scanner, our easy-to-use online provider portal CyberConnect, will keep you up to date with your cases as they progress through our laboratory. With CyberConnect you can submit, manage, and communicate on your cases anywhere, anytime.

Account Setup

Becoming a Cyberdent provider is simple, and free using our online provider portal, CyberConnect. Simply go to provider.cyberdent.com.au/ads and select new account to register your details. Once the new account form has been completed, you will have instant access to your online CyberConnect account.

Your online CyberConnect account enables you to be in control of your laboratory work from anywhere, at anytime.

- **Submit new cases.** A fully online prescription pad automatically books pickups for impressions or allows you to upload your intraoral scans if you have them.
- **Manage** existing cases and view their expected delivery dates.
- **Communicate** directly with the technicians working on your cases.
- **View** all invoices, statements, and manage your accounts including payments.

Case Submission

Cases are submitted online via your CyberConnect account. Simply, go to provider.cyberdent.com.au and log into your account. Once you're logged in, select submit a new case and follow the system prompts. For further information on how to submit a case via CyberConnect, scan the QR code below to view an instructional video.
